

GOVERNMENT OF SIERRA LEONE

Survey of Availability of Modern Contraceptives and Essential Life-Saving Maternal and Reproductive Health Medicines in Service Delivery Points in Sierra Leone

VOLUME TWO - TABLES

$$n = \frac{Z^2 p(1 - p)}{d^2}$$

Where

- n = minimal sample size for each domain
- Z = Z score that corresponds to a confidence interval
- p = the proportion of the attribute (type of SDP) expressed in decimal
- d = percent confidence level in decimal

February 2011

This is Volume Two of the results of the Survey on the *Availability of Modern Contraceptives and Essential Life-Saving Maternal and Reproductive Health Medicines in Service Delivery Points in Sierra Leone*. It is published by the United Nations Population Fund (UNFPA) Country Office in Sierra Leone. It contains all tables generated from collected data, while Volume One (published separately) presents the Analytical Report. Both are intended to fill the critical dearth of reliable, high quality and timely data for programme monitoring and evaluation.

PREFACE

This first annual report of the ‘Survey of Modern Contraceptives and Essential Life-Saving Maternal and Reproductive Health Medicines in Service Delivery Points’ in Sierra Leone is part of the new reporting system of the Global Programme on Reproductive Health Commodity Security (GPRHCS). The survey was undertaken to provide benchmark data information which are essential for sound Reproductive Health Commodity Security (RHCS) planning and for making administrative and policy decisions about the same. Three outcome indicators in the reporting framework were assessed to obtain data for the following country level indicators:

- I. Percentage of Service Delivery Points (SDPs) offering at least three modern methods of contraceptives;
- II. Percentage of SDPs where five selected life-saving maternal/RH medicines are available in all facilities providing delivery services, and
- III. Percentage of SDPs with ‘no stock-outs’ of contraceptives in the six months preceding the survey (April-September 2010).

Government of Sierra Leone and UNFPA acknowledge the valuable contributions received from various institutions and individuals that made the exercise the success it has been. In particular, we recognize the oversight functions and very high quality administrative and technical inputs of the GPRS Survey Steering Committee; with broad membership of stakeholders in the health sector of which the Reproductive Health Division (RHD) of Ministry of Health and Sanitation (MoHS) and the Parliamentary Committee on Health and Sanitation are co-Chairs. Credit is also given to the contributions of the Technical Committee that is jointly chaired by the Department of Planning and Information (DPI) of MoHS and Statistics Sierra Leone (SSL). Our thanks also go to the various District Health Medical Teams (DHMTs) for their willingness to participate in the survey and provide relevant information. The exercise was managed by the RHCS Advisor of UNFPA Sierra Leone. Finally, we are pleased with the highly professional and leading technical role played by the Principal Investigator and UNFPA Consultant, Mr. Ibrahim Mohamed Sesay, and the Research Assistant, Mrs. Cecilia M.S. Sesay.

The report is in two volumes: Volume One presents the Analytical Report and Volume Two contains all tables generated from collected data. Coming in the penultimate year of implementation of the Contraceptive Commodity Security Strategic Plan (2007-2011), the information will be desirable for implementation and co-ordination of family planning and programming of emergency obstetric care by helping to fill the critical dearth of reliable, high quality and timely data for programme monitoring and evaluation. The survey results will, therefore, be invaluable for the revision of the Plan and the repositioning family planning in Sierra Leone. We therefore recommend this report to anyone really interested in understanding the most up-to-date Modern Contraceptives and Essential Life-Saving Maternal and Reproductive Health Medicines in Service Delivery Points’ in Sierra Leone.

Ratidzai Ndlovu (Mrs.)
UNFPA Representative,
Republic of Sierra Leone

Zainab Hawa Bangura (Mrs)
Minister of Health and Sanitation
Republic of Sierra Leone
